

SILVER CREEK DESIGN SERVICE POLICY

Silver Creek Cabinets offers a free design service to all our clients. We will help you design your project free of charge; however it is the customer's responsibility to verify all designs before making any purchases. Silver Creek Cabinets does not guarantee or take responsibility for any designs. All designs are based on customer preferences. Our professional designers have been trained to help you with your project to the best of their knowledge. The design service is 100% FREE. There are no hidden fees or binding obligations. All designs are recommendations based on the information that we are given. The customer acknowledges that they have approved everything listed in the quote provided by Silver Creek Cabinets. If an order is received and the customer does not like the design, Silver Creek Cabinets will not be responsible to provide new cabinets.

Whether you submit drawings, a material list, or we do a cabinet drawing / design for you, the following design policy is applicable to you the cabinet purchaser. All design / quote services are provided based on customer's measurements and solely their responsibility. Silver Creek Cabinets holds no responsibility for incorrect cabinet sizes caused by improper measurements. This is why our return policy is so stern—to keep our prices so low. We are here to service your orders, but are not here to refund and restock the customer inaccuracies due to trial and error. All illustrations submitted for orders will be checked and drawn accordingly. It is then your responsibility to check the drawing and or list of cabinets against your project needs and verify all dimensions and sign off on drawing. Tip: Use tape and lay your project out on the floor to make sure you're getting what you want and that it fits before you order from anyone.
